September 2, 2021

Abstract

[Provide a brief summary explaining the goal of the session and relate your proposal to the topics of IFAC CAO 2021 (max 10 lines).] The topics should focus on topics related to the theory of optimal control and the optimization-based design in automation and decision-making processes.

1 Motivation and relevance

[This section should expand what written in the abstract, citing some important references and providing examples of applications.]

2 List of Papers

[This section should contain the list of papers. It is necessary to provide insights on the need for the invited session and unifying theme of the papers.] The session should be composed by 6 papers. When listing the papers, arrange them alphabetically by first author and accompanied by an abstract.

P1 First Author, Second Author...: "Title of the paper".
Abstract: [Write the paper's abstract here]

P2 First Author, Second Author...: "Title of the paper".
Abstract: [Write the paper's abstract here]

P3 First Author, Second Author...: "Title of the paper".
Abstract: [Write the paper's abstract here]

P4 First Author, Second Author...: "Title of the paper".
Abstract: [Write the paper's abstract here]

P5 First Author, Second Author...: "Title of the paper".
Abstract: [Write the paper's abstract here]

P6 First Author, Second Author...: "Title of the paper".
Abstract: [Write the paper's abstract here]

Bibliography

[Add here the papers cited in Section 1.]
